

Caring Providers... for Your Caring Community

Clare

MEDICAL OF NEW JERSEY

The Benefits of Being a Clare Medical Serviced Community...

**Administrators who partner with Clare bring integrated medical services to their residents.
For, comfort, care and convenience...the choice is Clare.**

Your residents are looking for value... you can provide it by having your community serviced by Clare.

A Clare serviced community tells potential residents that your aim is to provide a happier and healthier senior living experience. Clare Medical will provide you with the marketing materials you need to show residents who are evaluating your facility why they should reside with you.

Limited resourced and mobility challenged residents need access to proactive non-urgent medical service... we deliver it.

By becoming a Clare serviced community, you can ensure that your mobility challenged residents are getting the care they need and deserve, via a unique, mobile, delivery of modern medical care... **on-site**. Plus, you'll be able to reduce risks and costs associated with resident transportation. Think of it as the modern day version of the old-fashioned house call.

Happy, healthier residents are long-term residents... that will age in place if they are medically well cared for.

Your residents will thank you and so will their care providers, knowing that their loved one is being well looked after by our team of medical professionals in your community. Proactive coordinated care typically leads to reduced hospitalizations and emergency room admissions.

You've got questions and need help...your dedicated Clare customer service representative has the answers.

As a community administrator, your resources and time are limited. Your dedicated Clare customer service representative is there to help. When it comes to looking after your residents we'll be available when you need us.

The Clare Model... Joining with Smart Business Partners... You Should Too.

By providing an experienced team of multi-disciplinary providers who are supported by our electronic medical record (EMR) business partner, athenahealth, you can ensure that your residents' medical data is housed in a fully HIPAA compliant EMR solution.

With athena's state-of-the-art patient portal, authorized physicians, care providers as well as community care administrators can have access to a centralized patient record.

Care providers and services include:

- Primary care with visiting physicians and nurse practitioners supported by medical assistants
- Mental health professionals with a focus on senior care
- Podiatry and complex foot and ankle circulatory specialists
- Rehabilitative medicine
- Diabetic services
- Home health solutions
- Coordination of on-site mobile laboratory and radiography
- Resident, family, and staff health education event coordination

We will customize a team of Clare Medical professionals to complement your unique community living experience.

The Benefits of Being a Clare Medical Customer...

Clare Brings Health Care to the Customer... Not the Customer to the Health Care.

Bringing regular proactive care to the mobility challenged resident promotes a higher level of adherence to routine and preventative examinations. Accessibility and convenience fosters compliance, better patient outcomes, and longer lived, healthier residents.

Regional Teams...Familiar Faces.

For consistency, Clare assembles a local team of providers who work to establish trusting and long term relationships with our customers. As a result your resident will likely see the same team of familiar faces delivering their care. Providers who know their customers and their needs can establish better care plans designed to drive better outcomes.

Solutions That Give Caregivers a Breather.

Delivering a resident to an off-site medical appointment can be difficult. Often a 15 minute appointment takes several hours and occupies several caregivers. Clare's EMR and point of care technology helps to reduce the caregiver's workload and provides families living at a distance with peace of mind knowing that their loved one is being well looked after. It's a solution that everyone can be happy with.

Help Keeping Track.

Elderly patients miss appointments for a variety of reasons: They forget, they don't know who to follow up with, or they simply don't understand the plan of care they are receiving. The problem is compounded when a patient is a recent hospital discharge. The Clare team helps customers keep track and stay on schedule. **Appointment compliance = better care.**

**Call us today to learn how
Clare Medical can help your residents
stay healthier, aging in place...
and talking to their friends!**

A resident who is healthier and happier with their care has the potential to be an excellent source of referrals to your facility.

“Clare”

Increased referrals, higher consistent occupancy and overall resident satisfaction are the keys to improved community ratings.

Partner with Clare and deliver to your residents the quality medical care they deserve.
